(a) The non-GAAP measure "Adjusted Operating Income" is used to compare operating results. Management uses the information to review results excluding items that are not necessarily indicative of ongoing results.
(b) Excludes $\$ 8,650$ and $\$ 8,962$ of accelerated depreciation related to restructuring in 2015 and 2014, respectively.
(c) Excludes $\$ 11,952$ of loss related to disposal of a subsidiary in 2014.
(d) The non-GAAP measure Adjusted EBITDA is used to more clearly evaluate our cash generation from operations.

The Company believes it is useful for itself and investors to review, as applicable, both GAAP and the above non-GAAP measures in order to assess the performance of the Company's business for planning and forecasting in subsequent periods. In particular, the Company believes excluding the impact of restructuring, acquisition and integration-related costs is useful because it allows investors to evaluate our performance for different periods on a more comparable basis.
